## Time Is of the Essence

Watchmaker Richard Mille teamed up with professional golfer Bubba Watson to create a series of mechanical watches capable of withstanding the massive force of Watson's legendary drive. The first in the series, the limited-edition RM 038 Tourbillon Bubba Watson, graced the player's wrist during his 2012 Master's Championship win. The RM 055 Automatic is available now; and like its predecessor, it features an ultra-strong and lightweight white case, and its movement is hand-finished in the finest Swiss watchmaking traditions.

BEAUTY

## The Revlon Expression Experiment

Whether venturing into the world of bold lipstick or trying the season's trendiest nail shade, women often need to be encouraged to take a chance, try something new, and move out of their comfort zone. Through monthly challenges issued via Facebook, the Revlon Expression Experiment will encourage women and their friends to partake in a social movement of makeup experimentation to prove that beauty is anything but routine. Visit [apps.facebook.com/expressionexperiment](http://apps.facebook.com/expressionexperiment) to begin.

## No Kill L.A.

No Kill L.A. (N.K.L.A.) is a movement that puts faces on the thousands of animals dying in shelters throughout Los Angeles in order to eradicate needless deaths. In Los Angeles, 17,000 healthy or treatable animals were killed in city shelters in 2011. With a goal of reducing this number to zero in five years, N.K.L.A. plans to provide services where they are needed most so fewer animals are forced to enter shelters and to increase adoptions so that more animals leave shelters with a new home. The organization seeks to inspire others to adopt, foster, volunteer, donate, or spread the word. Visit [nkla.org](http://nkla.org) to learn more.
